Living Learning Communities (LLC) available and space is limited. Students in an LLC live on the same floor and participate in educational and social activities. Students share a common intellectual experience with an academic focus. Two or more required courses are paired to promote student success.

- **Michele Serros Multicultural**: newest community and based around Latina/o culture.
- **International**: promotes academic success and students’ transition to college life while focusing on developing a global perspective.
- **SURF**: for students who want to know more about research. Every year this community takes a weekend trip to the Channel Islands to research various topics.
- **Outdoor Adventures**: both a LLC and a TC. You decide whether you have classes tied to your community or not.

*A supplemental application is required.*
Theme Communities (TC) available and space is limited. Students with common interests engage in co-curricular activities without linked academic coursework.

- **Outdoor Adventures**: allows students to explore the outdoors, and participate in sustainability events.
- **Geek Life**: built around Gaming, Animation, Digital Adventures, and all things "geek chic". Potential activities include panels, CI Con, gaming tournaments, floor art show, or a group trip to a local comic con.

*A supplemental application is required.*
